

-and now a real bicycle Lock

Keyless thief-proof

*The Steen
Padlock*
for
Automobiles
and every
general Use

Just snap it on—and it's there to keep your bicycle safe. Every bicycle and motorcycle owner will instantly see the great safety value in the Steen Lock. Can't be picked—sturdily built—beautifully nickel-plated—rust-proof.

**No keys to carry
No keys to lose**

The Steen is the only keyless combination lock made especially for locking bicycles—it fills a long felt need. The long shackle or staple

locks the front wheel to the fork by combination—3 turns and it's open. Works just like a safe.

Bicycle and motorcycle riders all over the country have gone "wild" over the Steen—hundreds of thousands have already been sold without one cent spent in advertising. They have "gone over big" wherever stocked—a convincing proof of real merit and ready demand.

But that's only the start—our advertising campaign of national scope now starting will boost sales tremendously.

STEEN Combination Lock

**Over
200,000
Sold**

You won't need to "sell" Steen Locks—just put one of our beautiful display cases on your counter and the locks sell themselves.

The Steen is undoubtedly the biggest selling lock for 1921. You'll have customers come in and buy five or six locks at a time—there's no end of uses. The store-room, gas and water meter, washing machine, garage, spare auto tire, tool-kit, dog collar, the Ford transmission and a hundred other places need Steen Locks.

Both the Steen Bicycle and Padlocks are packed in handsome counter display cases. Get yours at once—get behind this lock—it's a real service to your trade.

We protect you with our money back guarantee. We are bound to force a rapid turnover of your stock to surpass any similar article on your shelves.

Steen dealers are constantly re-ordering big lots. Put Steens on your counter and let's go. Read the guarantee.

Guarantee! We absolutely guarantee that Steen Locks are thief-proof—they can't be picked.
